Job Title: Interaction Designer

Job Family: Communications & External Rels
Pay Grade: 014

Job Sub-Family: Interaction Design
Union Code: O9N

FLSA Status: E
Career Level: Professional Level P2

The Interaction Designer designs simple; human-centered experiences ranging from mobile; web; desktop applications; and other emerging technological platforms. Pursues the art and science of engagement-exploring the motivations and interactions that lead us to see; believe; think; and act differently. Defining the fundamental design principles and patterns of meaningful engagement at scale (large numbers of people); and designing the tangible expression of these principles in workflows; interfaces; and experiences.
